# Industrial-Organizational Psychology at Seattle Pacific University

## Ask yourself:

What difference does leadership make?

Can we find and develop leaders who lead strong and stay connected?

How do we build organizations that challenge and support people?

Does our faith matter at work? How does it affect our identity?

Imagine a graduate program where world-class professors and recognized leaders in the marketplace equip and empower you with excellent research and training. That's what you'll find in SPU's Industrial-Organizational Psychology program. These professor-mentors will enable you to change the world of work as:

- **Scholars** who possess the necessary tools, theoretical knowledge, and analytical skills to launch productive academic and/or consulting careers.
- **Practitioners** who apply knowledge and skills to manage change, utilize scientific methodologies, and improve organizations.
- **Leaders** who guide organizations, motivate and build teams, and develop new paradigms of leadership for the future.

This can all happen for you when you earn your MA or PhD in Industrial-Organizational Psychology at Seattle Pacific University.

**“The I-O Psychology program developed the skills I rely on almost every day in my job as a researcher.**

What I appreciated most about the program was learning how to conduct research not just for the sake of being the best scientist I can be, but for finding truth and meaning in the work we do.”

*Emily Pelosi, PhD '15  
Research Scientist  
Amazon*

*(Pictured on cover)*

**“The I-O program taught me hard and soft skills that I’ve leveraged in my new career.**

The mixture of research skills, hands-on experience, learning the human aspect of business, and exposure to professionals created a well-rounded combination of learning that I don’t think I would have found elsewhere.”

*Andres Umana, MA '20  
Analyst, People Analytics  
E15 Group*

**“The I-O program equipped me with the knowledge and tools to confidently enter**

the world of learning and development, and also the mindset to continue to grow and challenge myself there.”

*Annie Barthel, MA '18  
Talent Management Specialist  
Slalom Consulting*

## About the Industrial-Organizational Psychology Program

Experience the rigor and reward of a program built around four core essentials that can change the trajectory of your life and career for good.

### Research

**Provides the scientific evidence for what could be**

We use what’s called “evidence-based decision-making” when working with organizations. Research in Industrial-Organizational Psychology provides the support for decisions that will positively impact both employee motivation and organizational success.

### Practice

**The integration of what you know and who you are**

We are responsible for training students who will know how to get the job done in the real world. The elements of research and character funnel into the practical application of Industrial-Organizational Psychology. You will often hear about our “scientist-practitioner” model, which focuses on empowering students with a marriage of evidence-based theory and applicable strategies of change.

### Character

**The combination of strength and sacrifice**

We believe that the character of a person is defined by grace, and that grace is powerful because it both highlights our need for it, and the necessity for us to offer it to others. This program is a community of people who see their shortcomings and lead forward with strength and conviction.

## “The program’s investment in my competence and character set the foundation for my career.”

The rigorous learning, enriching relationships, and space for personal development make this I-O program like no other. The curation of research and practice sets students up to contribute from day one in their careers.”

*Stephanie Lopez, PhD '18*  
Manager, People Data  
Science & Analytics  
Nordstrom

## “Pursuing a degree in I-O Psychology at SPU is more than a degree.”

It is the partnership of rigorous academics, real-time practical application, and human-centered design that will evolve learners into practitioners, from students of the classroom to students of the world.”

*Jacob Redding, PhD '18*  
Learning and Development  
Partner – Tech  
Facebook

## You

### The instrument of change

Learn through the lenses of research, character, and practice to discover the unknown variable that is you. Use research and the practical experience and wisdom of faculty, fellow students, program alumni, and members of our local corporate and not-for-profit organizations to challenge yourself to become an instrument of change whether you serve as a consultant, employee, or leader.

**“We are deeply invested in developing the character and competence of a generation of leaders who will**

transform the world of work for the better. Decades of research on the psychology of organizations are the foundation, while the discernment, self-awareness, and skill of our graduates are the catalysts for change.”

*Paul Yost, PhD  
Chair and Associate Professor of Industrial-Organizational Psychology;  
Director of Applied Learning and Development*

# Industrial-Organizational Psychology Faculty and Staff

# Sample MA and PhD Program Sequences

Your courses follow a carefully thought-out sequence (two years for MA; four years for PhD) that integrates your personal growth and clinical competence. The chart below shows a typical student's course sequence for each program.

## MA Program Sequence

Quarter Credits Required for Completion: 66

### Year One

#### Autumn

ORG 6100 Organizational Behavior (4)  
ORG 6600 Quantitative Methods in Research I:  
Introduction to Inferential Statistics and  
Analysis of Variance (4)  
ORG 6003 Hacking the World of Work (4)

#### Winter

ORG 6610 Quantitative Methods in Research II:  
Correlation and Regression (4)  
ORG 6300 Leadership and Team Development (4)  
Elective(s) or Topical Seminar (3–5)\*

#### Spring

ORG 6101 Org Development and Consultation (4)  
ORG 6105 Motivation (4)  
Elective(s) or Topical Seminar (3–5)

#### Summer

ORG 6240 Social Psychology (4)  
ORG 6000 History and Systems (4)  
Elective(s) or Topical Seminar (3–5)

### Year Two

#### Autumn

ORG 6003 Hacking the World of Work (4)  
Elective(s) or Topical Seminar (3–5)  
Elective(s) or Topical Seminar (3–5)

#### Winter

ORG 6210 Program and Org Evaluation (4)  
ORG 6010 Selection and Performance  
Management (4)  
Elective(s) or Topical Seminar (3–5)

#### Spring

ORG 6230 Learning Systems and On-The-Job  
Dev (4)  
ORG 6001 Master's Seminar: Faith, Meaning,  
and Professional Foundations (4)  
Elective(s) or Topical Seminar (3–5)

*\*Suggested elective(s) placement*

*10 required; 4 must be ORG topical seminars*

## PhD 4-Year Program Plan

Quarter Credits Required for Completion: 168

### Year One

#### Autumn

ORG 7031 Quantitative Methods in Research I:  
Introduction to Inferential Statistics and  
Analysis of Variance (5)  
ORG 7100 Organizational Behavior (4)  
ORG 7003 Hacking the World of Work (4)

#### Winter

ORG 7001 FMP: Vocation, Ethics, Integrity (4)  
ORG 7300 Leadership and Team Development (4)  
ORG 7032 Quantitative Methods in Research II:  
Correlation and Regression (5)

#### Spring

ORG 7101 Org Development and Consultation (4)  
ORG 7105 Motivation (4)  
ORG 7011 Quantitative Methods in Research III:  
Psychometrics/Theory of Test Construction (5)

#### Summer

ORG 7240 Social Psychology (4)  
ORG 7000 History and Systems (4)  
Elective(s) or Topical Seminar (3–5)

### Year Two

#### Autumn

ORG 7995 Research and Dissertation (RVT) (2)  
ORG 7003 Hacking the World of Work (4)  
ORG 7033 Quantitative Methods in Research IV:  
Multivariate Modeling (5)  
Elective(s) or Topical Seminar (3–6)

#### Winter

ORG 7995 Research and Dissertation (RVT) (2)  
ORG 7210 Program & Org Evaluation (4)  
Elective(s) or Topical Seminar (3–6)

#### Spring

ORG 7202 Personality Theory & Research (5)  
ORG 7995 Research and Dissertation (RVT) (2)  
ORG 7010 Selection and Performance  
Management (4)

Earned Master's Degree

### Summer

ORG 7034 Qualitative Research Methods (4)  
ORG 7995 Research and Dissertation (RVT) (2)  
Elective(s) or Topical Seminar (3–6)

### Year Three

#### Autumn

ORG 7995 Research and Dissertation (RVT) (2)  
ORG 7021 Research Design and Methodology (5)  
Elective(s) or Topical Seminar (3–6)

#### Winter

ORG 7995 Research and Dissertation (RVT) (2)  
Elective(s) or Topical Seminar (3–6)  
Elective(s) or Topical Seminar (3–6)

#### Spring

ORG 7995 Research and Dissertation (4)  
ORG 7200 Theoretical Perspectives on  
Organizations (4)  
ORG 7230 Learning Systems and On-the-job  
Development (4)  
Passed Comprehensive Exam

### Summer

ORG 7995 Research and Dissertation (4)  
ORG 7940 Placement (4)  
Elective(s) or Topical Seminar (3–6)

### Year Four

#### Autumn

ORG 7995 Research and Dissertation (4)  
ORG 7940 Placement (4)  
Elective(s) or Topical Seminar (3–6)

#### Winter

ORG 7995 Research and Dissertation (4)  
ORG 7940 Placement (4)  
Elective(s) or Topical Seminar (3–6)

#### Spring

ORG 7995 Research and Dissertation (4)  
ORG 7940 Placement (4)
